

Lesson 4 - Support Resistance

Module 4 - Support & Resistance | 41 minutes | Quiz: 3 questions

Lesson summary

This lesson focuses on zone quality, reaction behavior, and practical entry timing around key levels.

Key takeaways

- Zone quality beats zone quantity
- Retests must be judged by reaction, not assumption
- Risk is defined before entry

Learning objectives

- Mark high-quality zones only
- Read reaction strength and failure
- Integrate levels with execution plan
