

Alpha Traders Workbook

Lesson 4 - Support Resistance

Module 4 - Support & Resistance • 41 minutes • Quiz: 1 questions

Lesson Summary

This lesson focuses on zone quality, reaction behavior, and practical entry timing around key levels.

Key Takeaways

- Zone quality beats zone quantity
- Retests must be judged by reaction, not assumption
- Risk is defined before entry

Learning Objectives

- Mark high-quality zones only
- Read reaction strength and failure
- Integrate levels with execution plan
